# U.S. Waterborne FOREIGN TRADE

REPORT FT 600

DOCUMENTS DEPARTMENT  
UNIVERSITY OF FLORIDA LIBRARIES  
TRADE AREA BY U.S. COASTAL DISTRICT  
GAINESVILLE, FLORIDA

JULY 1964

This report contains data on U.S. waterborne trade, presenting shipping weight information on trade between foreign trade areas and U.S. coastal districts. The report contains information by type of vessel service on exports of domestic and foreign merchandise, general imports, and data for Department of Defense controlled cargo exported under U.S. foreign aid programs combined with Special Category non-Department of Defense controlled cargo. The shipping weight figures shown in this report represent the gross weight of shipments, including the weight of containers, wrappings, and crates.

## Foreign Trade Areas

The foreign trade areas shown in this report are defined in Schedule R, Code Classification and Definitions of Foreign Trade Areas (copies available from the Bureau of the Census). Exports by vessel are credited to the foreign trade area in which the merchandise was unladen while imports are credited to the trade area in which the merchandise was laden.

## U.S. Coastal Districts

The U.S. coastal districts for which information is presented in this report are defined as follows:

- a. North Atlantic - Includes ports along the eastern seaboard from the northern boundary of Maine to the southern boundary of Virginia.
- b. South Atlantic - Includes ports along the eastern seaboard from the northern boundary of North Carolina to, but not including, Key West, Florida. Also included are all ports in Puerto Rico.
- c. Gulf - Includes all ports along the Gulf of Mexico from Key West, Florida, to Brownsville, Texas, inclusive.

March 25, 1965

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy.  
Annual subscription \$1.00.

U.S. DEPARTMENT OF COMMERCE, John T. Connor, Secretary

BUREAU OF THE CENSUS

- d. South Pacific - Includes all ports in the States of California and Hawaii.
- e. North Pacific - Includes all ports in the States of Oregon, Washington, and Alaska.
- f. Great Lakes - Includes all ports bordering upon the Great Lakes and their connecting waterways as well as all ports in the State of New York on the St. Lawrence River.

## Types Of Vessel Service

In this report information on dry cargo shipments is shown separately for liner and irregular or tramp vessels. Liner service is that type of service offered by a regular line operator of vessels on berth. The itineraries and sailing schedules of vessels in liner service are predetermined and fixed. Irregular or tramp service is that type of service afforded by vessels, other than tanker vessels, which are chartered or otherwise hired for the carriage of goods on special voyages. Vessels in this type of service are not on berth and their sailing schedules are not predetermined or fixed. Tanker vessels are those primarily designed for the carriage of liquid cargoes in bulk while all others are classified as dry cargo vessels.

## Data Presented In Tables In This Report

Tables 1, 2, and 3 of this report present data on exports of domestic and foreign merchandise on liner, irregular, and tanker service vessels, respectively, by trade area and coastal district, showing total amounts carried on all vessels and amount carried on U.S. flag vessels. The statistics in tables 1, 2, and 3 include nongovernment shipments, government financed economic assistance shipments under the Mutual Security Program, and shipments to U.S. civilian government agencies. Shipments of Special Category commodities are not included in tables 1, 2, and 3.

Tables 4, 5, and 6 contain information on general imports of merchandise which represent imports for immediate consumption plus entries into Customs bonded warehouses. Separate data are presented for liner, irregular, and tanker service vessels, by trade area and coastal district.

Tables 7, 8, and 9 contain data on shipments of Department of Defense controlled cargo exported under U.S. foreign aid programs combined with Special Category non-Department of Defense controlled cargo, presented in the same arrangement as the statistics in the preceding tables. The data in tables 7, 8, and 9 are not included in the export statistics in tables 1, 2, and 3. Shipments of Department of Defense controlled cargo represent exports under special foreign aid programs such as Department of Defense Military Assistance Program—Grant-Aid, etc., shipped on commercial or military vessels (vessels owned and operated by the Department of Defense). Special Category shipments are those for which detailed information cannot be released for security reasons. A list of Special Category Commodities is available upon request to the Bureau of the Census, Washington, D.C. 20233.

The figures in this report exclude information on certain types of transactions, as indicated below:

1. Arrivals or departures of cargo moving in transit under bond through the United States from one foreign country to another. Information on such shipments moving by vessel is presented in Report FT 985, Waterborne Foreign Trade Statistics.
2. Imports and exports by mail or parcel post and vessels moving under their own power or afloat.

3. U.S. Trade with Puerto Rico and with U.S. possessions. Information on this trade is presented in Report FT 800.
4. Exports to U.S. military forces of supplies and equipment for their own use and American goods returned to this country by U.S. military forces for their own use. In general, the statistics include exports to U.S. civilian government agencies abroad and imports by U.S. civilian and military agencies, other than those mentioned above as being excluded.
5. Shipments to Canada individually valued at less than \$2,000 and shipments to countries other than Canada individually valued at less than \$500 are excluded from the statistics on exports of domestic and foreign merchandise and non-Department of Defense shipments of Special Category commodities.
6. Import shipments on military vessels (vessels owned and operated by the Department of Defense).
7. Imports reported on informal entries (by definition, valued not more than \$250) and imports valued at less than \$100 reported on formal entries.

#### Symbols Used in the Tables of This Report:

- Represents zero.
- B Percent not shown when base is less than half of the unit of measurement shown.
- Z Less than half of the unit of measurement shown; less than 0.05 percent.
